### Sinclair TechHelp app

We would like to introduce you Sinclair TechHelp app. This practical tool is used for identification of error codes and their brief analysis. No matter if you are handling a problem with residential air conditioner or SDV system, Sinclair TechHelp is here to help you with all Sinclair products. Just download Sinclair TechHelp and have all information available in your smart phone. The app contains list of our products and their error codes, brief description of each error and suggested solution together with possible causes. Our app is available for all our partners to make after sale service as easy as possible.

The app is available at <http://en.sinclairapp.cz/>. Login is required, please use following user name and password:
