Wired controllers SWC-02 and XK19

Wired controllers SWC-02 and XK19 can be connected to all wall mounted split units of FOCUS, FOCUS PLUS, SPECTRUM, SPECTRUM PLUS series, to console units and to indoor units of MULTI VARIABLE series.

SWC-02

XK19

Please, note, it is necessary to choose a right cable:

SC-H01 can be connected to all wall mounted indoor units and to console units. It is a 4-line cable, 8m long, ended with „male“ connector.

SC-CDF can be connected to cassette units (MV-CxxBI), duct units (MV-DxxBI) and floor ceiling indoor units (MV-FxxBI). It is also a 4-line cable, 8m long, but ended by „female“ connector.
