SELECTION SOFTWARE SF-DC-FCU FOR FAN COIL UNITS

New tool for choice of Sinclair fan coil units SF-xxx(C2, C4, H, D3, F), with economical DC fan motor. Software SF-DC-FCU allows to choose units automatically, based on parameters of water cooling and water heating or desired airflow in the room.

You can also add optional accessories based on project request.

Futhermore, software contains capacity tables with water temperature and room temperature which may be exported to Microsoft Excel file.

Proposal may be exported to MS Word file, where detailed information about selected units are provided.
