## **Product Fiche**

## The basic information

| Madely ACE OCRU ACCE OCRU O   |
|---|
| Model: ASF-36BI, ASGE-36BI-3;   |
| Manufacturer / Address: SINCLAIR CORPORATION Ltd., 1–4 Argyll St.,                    |
| London, UK;   |
| Sound power level (indoor unit / outdoor unit):61/70dB(A);                            |
| Refrigerant: R32 ;  |
| Refrigerant leakage contributes to climate change. Refrigerant with lower             |
| global warming potential (GWP) would contribute less to global warming than           |
| a refrigerant with higher GWP, if leaked to the atmosphere. This appliance            |
| contains a refrigerant fluid with a GWP equal to 675. This means that if 1 kg of      |
| this refrigerant fluid would be leaked to the atmosphere, the impact on global        |
| warming would be 675 times higher than 1 kg of CO <sub>2</sub> , over a period of 100 |
| years. Never try to interfere with the refrigerant circuit yourself or disassemble    |
| the product yourself and always ask a professional.                                   |
| Cooling mode  |
| SEER: <u>6.1</u> ;  |
| Energy efficiency class: A++ ;  |
| Pdesignc: 10.0 kW;  |
| Energy consumption kWh per year, based on standard test results.                      |
| Actual energy consumption will depend on how the appliance is used and                |
| where it is located.  |
| Heating mode  |
|   |
| Type: Average ;   |
| SCOP: 4.0 ;   |
| Energy efficiency class: A+ ;   |
| <b>Pdesignh:</b> kW;  |
| Energy consumption <u>3146</u> kWh per year, based on standard test                   |
| results. Actual energy consumption will depend on how the appliance is used           |
| and where it is located.  |
| The back up heating capacity for calculation of SCOP at reference design              |
| condition: 1.6kW.   |
